## The Best Cob Difference

Best Cob specializes in creating the **highest quality, enviro-friendly, sustainable,** and **renewable corncob products** that service and support a wide range of industries **since 1966.**

We are a **faith-based** company who focuses on our **communities** and **employees.** We pride ourselves on being a **preferred, reliable supplier** who **stores corncob indoors** to ensure the **cleanest, driest, high quality** product to **consistently meet our customers' expectations.**

**Animal Feed Health / Medication Carrier:** Best Cob -80 is a superior medium for carrying liquids and granules for animal nutrition & medication. It facilitates homogeneous mixing and a uniform distribution of components in compound feed or premixtures that are safe for consumption.

**Fruit Fly Diet Filler:** Best Cob -80 is an economical bulking agent for fruit fly diets when mass-rearing. Corncob mixes synergistically and has no impact on the integrity of other additives.

**Drying Powder:** Best Cob -80 is also used to absorb moisture off of animals after birth to preserve body heat.

### Corncob Processing Procedure

Corncobs are processed through a series of milling, grinding, and screening processes. Products are classified by particle distribution size using a US standard mesh. If further information is needed, please request a specification sheet.

\*Product is natural cellulose material and may be discarded into normal waste or incinerated by approved methods. If the material has been used to absorb spills, follow state and local disposal regulations.
