

Crumbles (Pelleted Corncob Particles)

Enviro Friendly All-Natural Corncob Solutions

Applications

- **Spill Cleanup / Absorbent**
 - Oil
 - Grease
 - Sludge
 - Water
 - Coolant
 - Other Non-Aggressive Fluids
- **Animal Feed Nutrition Extender / Filler**
- **Lawn & Garden**
 - Composting

Benefits

All-Natural

Biodegradable

Super Absorbent

- All-Natural
- Biodegradable
- Lightweight
- Virtually Dust-Free
- High Absorption Capacity Reduces Product Consumption Rate
- Made in the USA

The Best Cob Difference

Best Cob specializes in creating the **highest quality, enviro-friendly, sustainable,** and **renewable corncob products** that service and support a wide range of industries **since 1966.**

We are a **faith-based** company who focuses on our **communities** and **employees**. We pride ourselves on being a **preferred, reliable supplier** who **stores corncob indoors** to ensure the **cleanest, driest, high quality** product to **consistently meet our customers' expectations.**

4 X More Absorbent Than Clay

Independent Lab Testing: Average Water & Oil Absorption Rate of Corncob vs. Clay, 2019 (Report No. V1KBT046)

13 X More Absorbent Than Fly Ash

Independent Lab Testing: Average Water & Oil Absorption Rate of Corncob vs. Fly Ash, 2019 (Report No. V1KBT046)

25 X More Absorbent Than Limestone

Independent Lab Testing: Average Water & Oil Absorption Rate of Corncob vs. Lime, 2019 (Report No. V1KBT046)

Corncob Processing Procedure

Corncobs are processed through a series of milling, grinding, and screening processes. Products are classified by particle distribution size using a US standard mesh. If further information is needed, please request a specification sheet.

*Product is natural cellulose material and may be discarded into normal waste or incinerated by approved methods. If the material has been used to absorb spills, follow state and local disposal regulations.
